& In-House
Concentrate Programs

BUBBLER® AUTOFILL LID

BUBBLER® AUTOFILL LID

Streamline Beverage Operations

Replace your current Bubbler lid with Crathco's Autofill Lid System. Your cold/non-carbonated dispensed offerings will always be fresh and available,

- **Increased Visual Appeal** — always available, increasing sales
- **Enhanced Accuracy and Consistency** — automatically adds the perfect amount of water and syrup every time
- **Reduced Labor** — keeps staff focused on customers
- **Minimizes Training** — simple set-up and operation
- **Reduced Downtime** — manual re-filling is time-consuming
- **Increased Food Safety** — minimal exposure to product
- **Seamless Integration** — update existing equipment or your entire system
- **Waste Reduction** — prevents loss from incorrectly mixed product
- **Versatile** — perfect for BIB or in-house syrup programs

**Crathco Autofill Lid
Reduces Labor and Redirects
Staff to Customers**

HERE'S HOW AUTOFILL WORKS

- Automatically senses drink volume through integrated lid sensor.
- When level falls below the probe, fill tube automatically refills the bowl with the perfect blend of BIB syrup and water.
- Post Mix process mixes beverage syrup in the bowl.
- "Sold Out" switch alerts operator (by red indicator lights) syrup is low or water connection needs attention.
- Beverage syrup ratio can be set to specific needs. Controlled by gas pressure and reducing valve.
- Integrated LED light improves product display.
